COMPANY PROFILE

Sunshiv Botanics excels in the production and promotion of Neem-based products, Insecticides, Fungicides, Herbicides, and Plant growth regulators. Our manufacturing facilities are strategically located in Palwal and Faridabad (India), encompassing a combined area of 100,000 square feet. This infrastructure is dedicated to catering to the needs of our esteemed customers. Sunshiv Botanics is proud to be awarded ISO 9001 Certification, an Internationally recognized standard that ensures that our products and services meet the need of our clients nad through an effective Quality Management.

RESEARCH & DEVELOPMENT

SUNSHIV BOTANICS has set up of analytical techniques used to separate the chemical components of a sample mixture and then detect them to determine their presence or absence and how much is present.

We have **HPLC (High Performance Liquid Chromatography)** Make **SHIMADZU, JAPAN & WATERS, USA** and other instruments installed in our lab through which we separate, identify and quantify each component in a mixture and do testings. The main purpose of these techniques used by **SUNSHIV BOTANICS** is to test on different physical and chemical parameters to meet the requirements of customers through their innovative diversified agro inputs by offering latest technology to the area.

ABOUT SUNSHIV BOTANICS

Sunshiv Botanics is a Leading Manufacturer of wide range of Products which ranges from the Seed-Sowing stage to Crop Harvest.

Our Products are registered with **Central Insecticide Board (CIB)**, Faridabad and under Fertilizer Control Order (FCO).

We are one of the **Leading Business Groups of Faridabad (Delhi NCR) INDIA** having Successful Existence in the diversified fields of **AUTO COMPONENTS, TELECOM & TEXTILE INDUSTRIES** from the last four decades.

We are **exporting** to more than **10 countries** across the globe like **Germany, US, Italy, Vietnam, Australia, UAE, Zambia.**

KEY FEATURES

Available **GLP registration** data viz. 5 batch report toxicity studies, physical-chemical properties.

We also offer any **tailormade combination formulations.**

Capacity (Azadirachtin Technical Powder)-8000 kgs/ annum (on 30% purity basis).

CERTIFICATIONS & MEMBERSHIPS

PLANT INFRASTRUCTURE

NEEM BASED PRODUCTS

AZADIRACHTIN TECHNICAL POWDER

- containing **10 to 40% Azadirachtin (A+B)** extracted from Neem Seed Kernel.
- A highly stable product - produced using state-of-the-art technology.
- Neem's primary active ingredient Azadirachtin is the most potent insecticidal ingredient present in the Neem Seed Kernel.
- It is free from **Aflatoxin B1, B2, G1, G2**.

**Azadirachtin Technical
(NEEM EXTRACT)**

WHY AZADIRACHTIN TECHNICAL IS THE BEST CHOICE FOR MAKING INSECTICIDES/PESTICIDES?

- It is the most potent insect repellent, antifeedant and an insect growth regulator and it affects more than 600 species of insects.
- Insects can't develop resistance against Azadirachtin.
- It is completely safe for non-targeted insects like Honey Bees & Butterflies.
- Pesticides containing Azadirachtin are versatile; bio-degradable; leaves no residue hence safe for environment.
- It provides a broad- spectrum pest control for fruits, vegetables and plantation crops, greenhouses, turf, outdoor ornamentals and agricultural crops such as sugarcane, paddy, cotton and tea.
- Insects can't develop resistance for Azadirachtin due to symbiotic effect of Bio chemicals present in it.

NEEM BASED INSECTICIDES AZASUN

- Neem Pesticide/Insecticide formulation is a Neem Based botanical product that contains Azadirachtin as an active ingredient.
- Azadirachtin is found to be very effective for over 600 species of insects.
- AZASUN** controls more than 60+ species of Insects.
- AZASUN** controls Aphids, Heliothis, Pink mite, Diamondback moth (DBM), Red Spider mite, Thrips, Brown plant hopper, Leaf Folder, Stem borer, Leaf hoppers, Whitefly, Caterpillar, Spodoptera, Pod borer and Fruit borer.

Neem Formulations

Azadirachtin 0.03% (300 ppm) E.C.

Azadirachtin 0.15% (1500 ppm) E.C.

Azadirachtin 0.3% (3000 ppm) E.C.

Azadirachtin 1% (10,000 ppm) E.C.

Azadirachtin 3% (30,000 ppm) E.C.

Azadirachtin 5% (50,000 ppm) E.C.

PURE NEEM OIL

Neem oil is a Botanical oil extracted from Neem Seed Kernel by Cold Pressing Neem Oil or Neem Seed Oil is a Brownish Yellow color Liquid.

Neem Oil contains various active compounds like Azadirachtin along with Nimbin and Salanin.

Neem Oil contains Azadirachtin content from 150 PPM to 2000 PPM

Neem Oil is free from Aflatoxin B1, B2, G1, G2.

PROPERTIES OF NEEM OIL

COLOUR	ODOUR	PH	NATURE AT ROOM TEMPERATURE	AZADIRACHTIN CONTENT
BROWNISH YELLOW	NEEM ODOUR	5.5 TO 7.5	LIQUID	150-2000 PPM AZADIRACHTIN

NEEM RUDRA CAKE (NEEM FERTILIZER)

Neem Rudra Cake is a product which we obtain from the first quality of neem seed's kernel which has been crushed to extract Neem Oil.

Pure oil cake in cake or pellet form is a bye-product of the pure neem oil, & a 100% eco-friendly organic manure/fertilizer.

Neem Cake is the Future of farming in all over the world. We have developed a unique neemcake which contains more Nitrogen, Phosphorus, Potassium, Calcium & Magnesium and bitter Limonoids.

It is a proven soil Conditioners and it is being used directly or in blends with other manures like Urea farmyard manure etc. for its benefits of Organic Nutrients, Pest repellent properties.

PROPERTIES OF NEEM CAKE (ORGANIC MANURE)

BIO-FERTILIZERS/BIO-STIMULANTS

- Acetobactor.
- Ammonium Molybdate.
- Anhydrous Borax.
- Azospirillum.
- Azotobacter.
- Bio Enriched Organic Manure.
- Borax (Sodium Tetraborate).
- Carrier Based Consortia.
- Chelated Iron as Fe-Edta.
- Chelated Zinc as Zn-Edta
- City Compost.
- Concentrated Liquid Calcium 11%
- Copper Sulphate.
- Di-Sodium Octa Borate Tetra Hydrate.
- Di-Sodium Tetra Borate Penta Hydrate
- Ferrous Sulphate
- Liquid Consortia
- Magnesium Sulphate
- Manganese Sulphate.
- Mycorrhizal (Vam).
- Organic Manure.
- Phosphate Rich Organic Manure (Prom).
- Phosphate Solubilising Fungal Biofertilisers.
- Phosphate Solubilizing Bacteria (Psb).
- Potash Derived from Molasses 14.5%
- Potassium Mobilizing Bacteria (Kmb).
- Rhizobium.
- Sulphur 90% (Granular).
- Sulphur 90% (Powder).
- Vermi Compost.
- Zinc Oxide Suspension Concentrate.
- Zinc Solubilizing Bacteria (Zsb).
- Zinc Sulphate Heptahydrate.
- Zinc Sulphate Mono-Hydrate
- Zinc Sulphate Monohydrate (Granular).
